

APTI Central Zone National Seminar (APTI Women forum)

Treat to target approaches for dermal disorders: Newer perspectives and challenges

24th to 26th March 2017

Venue : University Institute of Pharmacy
Pt. Ravishankar Shukla University, Raipur (C.G.)

**APTI CENTRAL ZONE
National Seminar**
(APTI Women Forum)

About The Seminar

APTI Central zone (Chhattisgarh, Jharkhand and Madhya Pradesh) in association with APTI women forum is going to organize Seminar on the theme. **"Treat to target approaches for dermal disorders: Newer perspectives and challenges"** at University Institute of Pharmacy, Pt. Ravishankar Shukla University Raipur, Chhattisgarh. The organizing committee has planned for an exciting and informative program, where students, researchers and leaders in pharmacy will meet and share their experience.

This seminar aims to provide the academicians, researchers and industry representatives a forum to share and exchange their research and practical experiences and challenges in development and technological advances in pharmaceutical research with special emphasis on novel approaches towards bioactive for dermal delivery. It is intended to provide proper direction and vision to future research for the benefit of mankind. We are confident that this seminar will provide a unique opportunity for pharmacy professionals and academic researchers to analyze their research work in innovative form and will also help them in generating advance ideas and thoughts and areas of research related to the theme of the seminar. Hence, the scientific committee has prodigious pleasure in inviting you for this great event with the purpose to provide a forum to share and circulate information and facilitate the exchange of practical experiences among the members of pharmacy profession. This will be attained through a rich and varied program, including thought provoking keynote and plenary sessions.

ASSOCIATION OF PHARMACEUTICAL TEACHERS OF INDIA - an association found by the pioneers of Pharmacy education in India in 1966 by leading personalities like Prof. M. L. Schroff, Prof. G. P. Srivastava and others, has come a long way in creating better intercommunication and promotion of excellence in pharmacy education. Through its tailor-made mission and objectives, the association has provided a single platform in bringing together teachers of pharmacy education from all over the country. This has helped in the achievement of excellent standards and to develop new technological methods in pharmacy education through the exchange of views amongst the teaching members. The emergent world today with unbelievable sophistication under its belt demands for technically sound and highly knowledgeable pharmacists. The contribution of a teacher is thereby quite demanding. A Teacher apart from being an educator also contributes to science as a researcher, helps in business development as a consultant to pharmaceutical industry and also creates social awareness as a community pharmacist.

APTI central zone comprises of state branches of Chhattisgarh, Jharkhand and Madhya Pradesh. APTI central zone shares common vision of pharmacy profession development and awareness in these states. State branches have been organizing several conferences and pharmacy awareness programs in collaboration with private institutions of the state as well as the FDA. But this is the first time when all three central states have come up under the banner of APTI central zone to commonly work for the betterment and upgradation of pharmacy profession. Since last 2 years APTI central zone is encouraging pharmacists for participation in APTICON and other training programs especially for teachers. It has also conducted several interaction programs for filling the gap between practicing pharmacist and budding pharmacist.

APTI Women Forum

Women forum is committed to provide gender equality at workplace so that women leadership and involvement will lead to further landmarks in pharmacy. More than 20000 teachers are contributing to develop competent pharmacists and 60 - 70 % teachers are women taking responsibilities of quality education at Institute level and even family responsibilities for a healthy and happy life. This forum and its activities will bring all women pharmacy teachers together to discuss various issues related to professional responsibilities and many leaders will emerge out to strengthen pharmacy

About The University

The Pt. Ravishankar Shukla University (PRSU) is one of the oldest and the largest Universities of Chhattisgarh accredited with A grade from NAAC. It was established in 1964. It is named after Pt. Ravishankar Shukla (1877 - 1956), the first Chief Minister of Madhya Pradesh. It caters to the needs of the youths of Chhattisgarh and adjoining States, namely Madhya Pradesh, Maharashtra, Orissa, Jharkhand, Andhra Pradesh, as well as from West Bengal and Andaman & Nicobar Island in the realm of higher education and research. Pt. Ravishankar Shukla University, being the oldest university, is leaving no stone unturned to cater to the needs of the society. The university has grown enormously over the last 51 years in terms of number of students (approx. 0.2 million) and disciplines in 27 Schools of Studies (SoS).

About University Institute of pharmacy (UIOP)

The Institute of Pharmacy has been ranked 22nd by NIRF, MHRD. Consecutively, for two years Institute has been awarded with Dr. Baburam Saxena running trophy for best department of the university (2013-14; 2014-15). The University Institute of Pharmacy was established with the object of imparting quality education in pharmacy. The Institute offers undergraduate, postgraduate courses and doctoral program in pharmaceutical science under the Faculty of Technology. During the last decade it has established itself as one of the leading centers of education and research in the area of Pharmaceutical Sciences. The institute is having state-of-the-art infrastructural facilities for the research. The institute has been successful in achieving and maintaining high level of research activity that has been duly recognized at national and international levels. It has attracted funding from various organizations such as AICTE, UCC, ICMR, CCOST and DST.

About the city

The city of Raipur is the capital of Chhattisgarh. It represents the administrative, educational, Business and industrial-seat of the State. In its immediate neighborhood lies, the Bhilai, the steel city of India, where the largest steel plant of Asia is located. In the south of Raipur is the tribal heart of India - the Bastar, where the tribal culture, art and philosophy are still preserved in original form along with the natural settings in deep and thick woods. Raipur has a tropical- wet and dry climate. The climate of Raipur expected to be quite pleasant with a median temperature of about 21°C with highest 28°C during the period of the seminar (24-26 March, 2017). Normal clothing and other outfit will suffice. It is well connected by Air, and Road. Raipur can be accessed conveniently from most of the metropolitan cities of India. It has a domestic airport. There are daily flights from New Delhi, Mumbai, Chennai, Kolkata, Bangalore and Hyderabad. Raipur is an important railway junction (Indian Railways website: <http://www.indianrail.gov.in>). It is located about 300 km from Nagpur in the East on the Mumbai-Kolkata (7fowrah) trunk line. The Chhattisgarh [literally Thirty -Six forts] was carved out of Madhya Pradesh as a distinct political entity in 2000. It is the 10th Largest state in India, with an area of 135190 km with a population of 25.5 million; Chhattisgarh is the 16th most populated state of the nation. It is a source of electricity and steel for India. It has been declared as the herbal state and is situated in Deccan bio-geographical area. It houses rich and unique biological diversity. It is very rich in endemism with respect to medicinal plants. It falls under two major forest types, namely tropical- moist deciduous forest and the tropical- dry deciduous forest and is endowed with 22 varied forest sub types.

About Chhattisgarh

The newly formed state of Chhattisgarh is an interesting tourist destination considering the blend of tribal tourism, history, nature and wildlife that it offers. The bulk of tourist attractions in Chhattisgarh however lie virtually unexplored. The virgin forests, dotted with picturesque waterfalls, scenic plateaus and winding rivers offer a feast to eyes and the lens of your camera. The forests of Chhattisgarh incidentally occupy 42% of the state's land surface. The tourist attractions in Chhattisgarh India therefore cater to a large tourist taste and has infinite prospect of harboring a flourishing tourism industry. The small town of Kawardha offers breathtaking views of nature and a rich tribal life. The royal palace at Kawardha is one of the major tourist attractions in Chhattisgarh. The village of Bastar, apart from offering a vivid glimpse of the tribal life, offers a wide array of metal crafted handicrafts. These molded iron objects are original tribal products of Bastar and is quite popular among tourists.
